MODEL:	KJ-128P
SIZE:	195*155*93mm
PACKAGE:	Neutral packing

Portable Audio Recorder Jammer

Model: KJ-128P

Introductions:

The audio recording device KJ-128P is used to jam the operation of the recorders by radiating noise interference, uses the high secured encryption algorithm for encryption operation and use high and low frequency sound source mixing to deal with the random number of encryption.

KJ-128P parameters of the noise interference are specially applied on the jamming of many types of recorders. It improves the functioning performance of the jammer.

KJ-128P does not make any acoustic noises when it is working!

KJ-128P can jam >99% types of (Cassette Tape Recorder) analog recorder equipped with wire or without wire microphone that you can buy in the market and 95% types of digital recorder(including digital recorder integrated in the mobile phone) that you can find in the market.

Features:

Jamming both the audio cassette recorders and digital recorders

Real Time clock design to disguise its actual function

Battery operation time up to 3 hours.

Intelligent fast battery charger.

Suitable for portable application.

Remote control unit to turn on/ off the jammer.

Hidden design, can be custom made as different appearances.

Output power adjustable.

Technical Specifications:

Jamming distance:

- digital recorder (including mobile phone recorder) , up to 2 meters
- cassette recorder, up to 3 meters

Operation time: long time (by battery 3 hrs)

Jamming angle: 90 degrees (horizontal / vertical)

Size: 195*155*93?mm?

Net Weight: 1.5kg
