MODEL:	KJ-300DW6
SIZE:	590*395*265mm
PACKAGE:	Neutral packing

High Power Stationary Waterproof Drone Jammer

Model: KJ-300DW6

Introductions:

KJ-300DW6 is a High Power Waterproof Drone Jammer, IP level IP65, can be remote monitored by Internet.

Features:

Output power adjustable

Easy operation and installation

High Efficiency output power, long jamming distance

Effectively making subsections, no interception to base station

Waterproof Jammer, proper for outdoor use

Remote monitoring system available

Applications:

Proper for Prison, police, military or government buildings, and any other sensitive locations where the commercial drones are not allowed.

Technical Specifications:

Working frequency bands: 4 to 6 bands selectable of all frequency bands used by commercial drones such as 315, 433, 868, 915MHz, 1.2G, GPS L1, GPS L2, 2.4G, 5.8G, etc.

Channel output power: up to 50W

Total RF output power: 300W

Internal Modulation: FM Hopping Frequency and Sweeping

Signal source: PLL Synthesized and VCO

Effective jamming range: 50-1000m depending on the the environment signal strength;

Power supply: 220VAC/110VAC, 24VDC/ 48VDC (Optional)

Continuous working hours: Long time

Power Consumption: up to 900W

Antennas type: High Gain Direction Panel Antenna or Omni Antenna

Remote Control: Internet IP monitoring available (optional)

Dimension: 590*395*265mm

Net Weight: 30kgs;

Operating Temp: -20°C - +50°C

Humidity: 5% - 90%
